PCL5 ZD

DIAGNOSTIC SLIT LAMP

PCL5 - reliable colour reproduction for a stunning image quality.

Working distance as you are used to.

Very smooth and ergonomic joystick.
Brightness control in the knob.

Microscope with
converging binocular
tube

Drum rotation

Standard filters &
accessories

The PCL5 ZD is the kind of precision you want to see in your office. A great diagnostic instrument that you can rely on. IR- & UV-filter is standard. Proven usability is accompanied by a high quality stereoscopic microscope to deliver high image quality and contrast.

PCL5 lenses are coated to ensure reliable colour reproduction for a stunning image quality.

PCL5 ZD is a good choice in terms of handling, price and image quality.

PCL5 ZD

Slit width	0 to 16 mm continuous
Slit length	1 to 16 mm continuous
Slit diaphragm	ø 1 mm
Slit rotation	± 90° (0-180°)
Illumination unit swing	horizontal ± 90°
Filters	blue, redfree (green), grey (10%) UV and heat absorption are pre installed
Illumination	Halogen 6 V, 20 W 0 lux to 600,000 lux (Halogen) optional: LED 14 V, 5 W
Power requ.	110 V - 240 V 50/60 Hz
Weight	12.7 kg

Stereo microscope	
Stereo angle full	10°
Oculars	± 8 D
Magnification	6.3x / 10x / 16x / 25x / 40x
Ocular magnification	12,5x
Pupillar distance	52 to 78 mm
Microscope unit swing horizontal	± 30°
